# Current RM Framework

# Future RM Framework

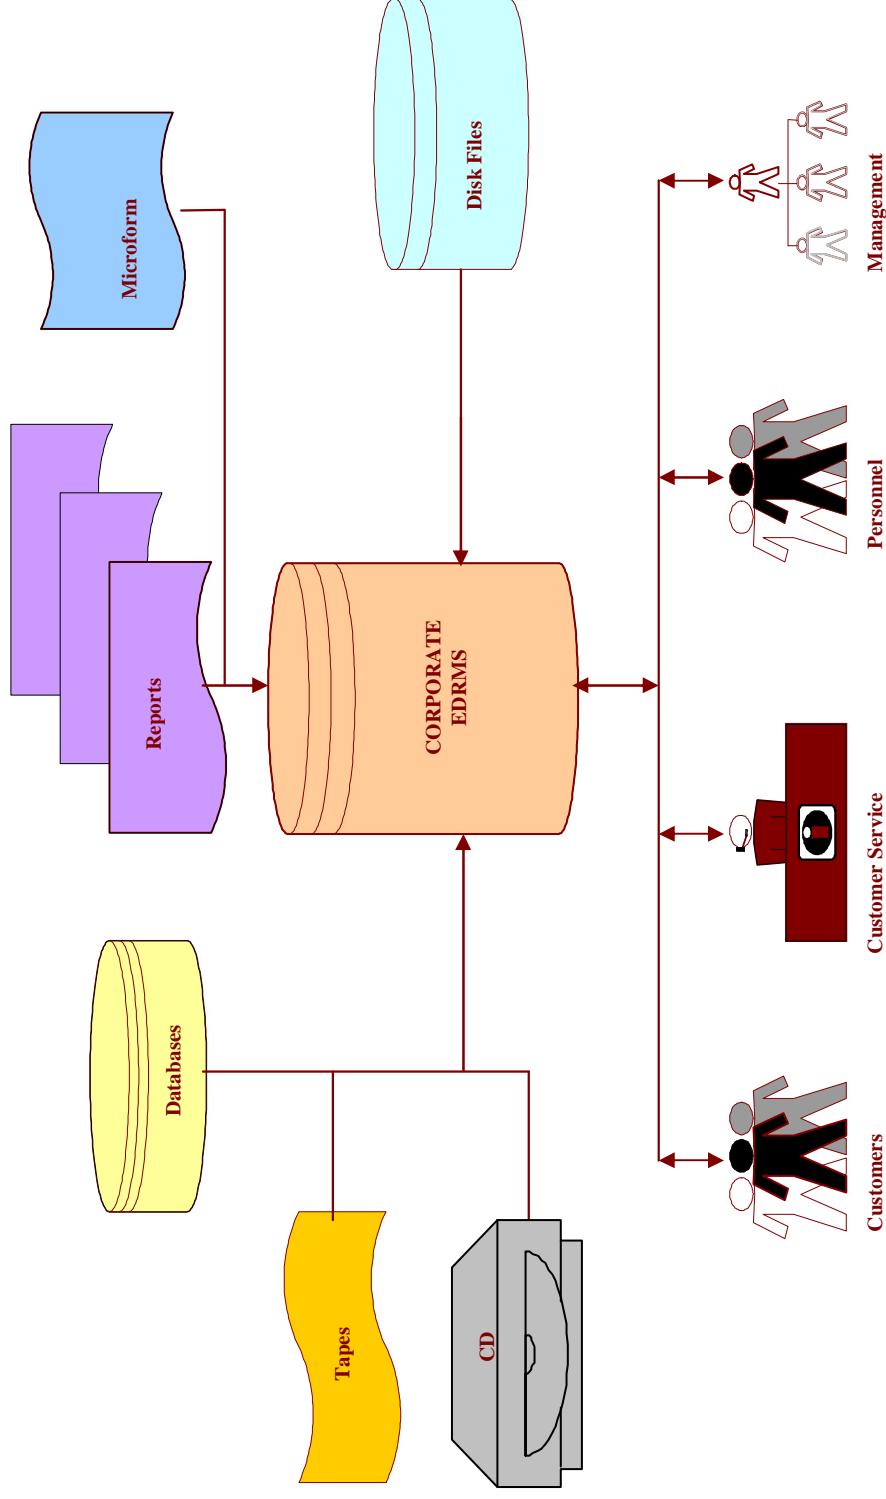

# RM Compliance Framework

---

- AS ISO 15489  
Australian International Standard for Records Management
- *Public Records Act 1973*
- *Crimes (Document Destruction) Act 2006*
- *Electronic Transactions (Victoria) Act 2000*
- *Evidence Act 1958*
- *Freedom of Information Act 1982*
- *Health Records Act 2001*
- *Information Privacy Act 2000*
- Organisation specific legislation

# Information Flow via RM Program

# Digital Destiny of RM

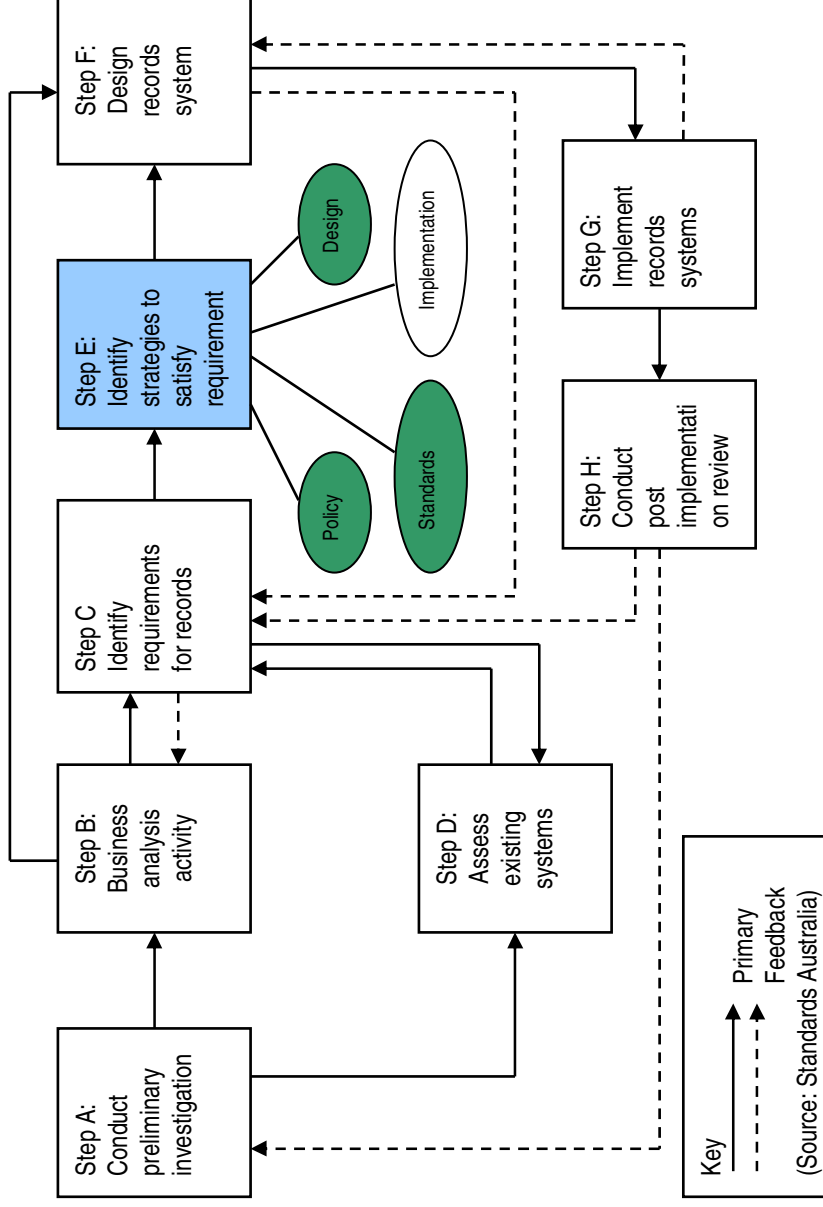

## KNOWLEDGE AND/OR RECORDS MANAGEMENT PROGRAM

## TECHNOLOGICAL TOOLS

# Program Delivery

AS ISO 15489.2 - 2002

# RM Policy Considerations

---

- Existing or selected product to be mandated as an official Electronic Document and Records Management System (EDRMS) and certain tools may be officially used to record information
- Transition to a fully functioning electronic recordkeeping operation for the organisation, whereby the electronic record captured in the EDRMS is recognised as the primary official corporate record
- All staff are responsible for capturing emails, faxes and correspondence which relate to official corporate business into the EDRMS
- Records Management Policies and Procedures to be adhered to by all staff with audit and compliance responsibility assigned to the Records Management Unit
- Records Management Unit to be responsible for the quality of corporate information and records stored in the EDRMS

# RM Policy Considerations

---

- **A Business Classification Scheme to be implemented as the official naming convention for all records within the EDRMS**
- **Records Management Unit to be responsible for compliance with legislation, standards and guidelines, training, education and provision of recordkeeping advice to all staff**
- **The structure and design of the EDRMS to be managed by the Records Management Unit**
- **As a key component of the new Records Management Program - user feedback be obtained via a Change Management Group**

# Strategic Direction Action Plan

---

## Strategic Item No. 1
